

Data Specification for 2025 HKDSE Results statistics

The general minimum requirement for admissions to undergraduate courses in tertiary institutions is 'core subjects at 332A' in the Hong Kong Diploma of Secondary Education Examination (HKDSE), which refers to attainment with level 3 in Chinese Language and English Language, level 2 in Mathematics Compulsory Part and 'Attained' in Citizenship and Social Development, respectively. Some courses may require 'core subjects at 333A' which refers to attainment with level 3 in Chinese Language, English Language and Mathematics Compulsory Part, and 'Attained' in Citizenship and Social Development, respectively.

This dataset includes the following statistics:

- The general performance
- The general performance in the best five subjects
- The results statistics and grade point distribution for eligibility to sub-degree programmes
- The results statistics and grade point distribution related to university admission
- The performance of candidates with special needs
- The level distribution in both languages
- The level distribution in Mathematics Compulsory Part and Extended Part
- The top levels / grades statistics

2025 HKDSE Statistics on general performance

Item	Description	Note

All candidates taking at least five Category A / B subjects - Total	Number/Percentage of all candidates taking at least five Category A / B subjects	

Notes: (i) In the calculations for attainment in the best five subjects, Mathematics Compulsory Part and Mathematics Extended Part are counted as one subject. When candidates have results in both parts, the better of the two will be selected. 'Attained' in Citizenship and Social Development is deemed comparable to level 2 in Category A subjects.

(ii) Both Category A and Category B subjects are included in the table above. 'Attained with Distinction (II)' in Category B subjects is deemed comparable to level 4 in Category A subjects while 'Attained with Distinction (I)' and 'Attained with Distinction' are deemed comparable to level 3.

2025 HKDSE Statistics for eligibility to sub-degree programmes - Results statistics

The minimum entrance requirement for sub-degree programmes is level 2 in five subjects (including Chinese Language and English Language) in the HKDSE. Level 2 in Mathematics Extended Part is recognised as one of the five HKDSE subjects in fulfilling the minimum entrance requirement. If the five HKDSE subjects include Citizenship and Social Development and/or Category B subjects, the minimum entrance requirement would be 'Attained' for the subject(s) concerned. 'Attained with Distinction (II)' in Category B subjects is deemed comparable to level 4 in Category A subjects, 'Attained with Distinction (I)' and 'Attained with Distinction' are deemed comparable to level 3, and 'Attained' is deemed comparable to level 2.

Item	Description	Note

Mathematics Extended Part is counted as one elective subject.

Note: 'Attained' in Citizenship and Social Development is deemed comparable to level 2 in Category A subjects.

2025 HKDSE Statistics for eligibility to sub-degree programmes - Grade point distribution in the best five subjects

Both Category A and Category B subjects are included in the calculation of the total grade points of the best five subjects shown in the table below. Level 5** in Category A subjects (except Citizenship and Social Development) is counted as 7 points, level 5* as 6 points, level 5 as 5 points, level 4 as 4 points, level 3 as 3 points, level 2 as 2 points, and level 1 as 1 point. 'Attained' in Citizenship and Social Development is counted as 2 points. For Category B subjects, 'Attained with Distinction (II)' is given 4 points, 'Attained with Distinction (I)' and 'Attained with Distinction' 3 points, and 'Attained' 2 points. It should be noted that the score distribution table only serves as a reference and admission to any programme offered by individual universities / institutions will depend on a number of factors including specific programme requirements, the number of applicants and places offered, and candidates' Student Learning Profile and performance at interviews, etc.

Item	Description	Note

Mathematics Extended Part is counted as one elective subject. When candidates have results in both Mathematics Compulsory Part and Mathematics Extended Part, grade points of both parts will be separately taken in the calculation of the total grade points of the best five subjects.

Note: 'Attained' in Citizenship and Social Development is deemed comparable to level 2 in Category A subjects.

2025 HKDSE Statistics related to university admission

In the table below, 'core subjects at 332A' refers to attainment with level 3 in Chinese Language and English Language, level 2 in Mathematics Compulsory Part and 'Attained' in Citizenship and Social Development, respectively. 'Core subjects at 333A' refers to attainment with level 3 in Chinese Language, English Language and Mathematics Compulsory Part, and 'Attained' in Citizenship and Social Development, respectively.

2025 HKDSE Grade point distribution in the best five subjects with ‘Attained’ in Citizenship and Social Development (Statistics related to admission to local undergraduate degree programmes) – With core subjects at 332A or better

Both Category A and Category B subjects are included in the calculation of the total grade points of the best five subjects shown in the table below. In Category A subjects (except Citizenship and Social Development), level 5** is counted as 7 points, level 5* as 6 points, level 5 as 5 points, level 4 as 4 points, level 3 as 3 points, level 2 as 2 points, and level 1 as 1 point. ‘Attained’ in Citizenship and Social Development is part of the entrance requirements for admission to local undergraduate degree programmes, but is not included in the calculation of total grade points for the best five subjects. ‘Attained with Distinction (II)’ in Category B subjects is deemed comparable to level 4 in Category A subjects for admission to some degree programmes while ‘Attained with Distinction (I)’ and ‘Attained with Distinction’ are deemed comparable to level 3. ‘Core subjects at 332A’ refers to attainment with level 3 in Chinese Language and English Language, level 2 in Mathematics Compulsory Part and ‘Attained’ in Citizenship and Social Development, respectively. **It should be noted that the score distribution table only serves as a reference and admission to any programme offered by individual universities / institutions will depend on a number of factors including the general entrance requirements of the institutions, specific programme requirements, the method of calculation of admission scores, the number of applicants and places offered, candidates’ Student Learning Profile (SLP), other experiences and achievements in competition / activities (OEA), and performance at interviews, etc.**

Mathematics Compulsory Part and Mathematics Extended Part are counted as one subject. When candidates have results in both parts, the better of the two will be selected.

Note: 'Attained' in Citizenship and Social Development is part of the entrance requirements for admission to local undergraduate degree programmes, but is not included in the calculation of total grade points for the best five subjects.

2025 HKDSE Cumulative statistics of grade point distribution in the best five subjects with 'Attained' in Citizenship and Social Development (Statistics related to admission to local undergraduate degree programmes)

Statistics related to admission to local undergraduate degree programmes are specially designed to match the current calculation methods adopted by some universities / institutions. All Categories A and B subjects are counted in the calculation, and Mathematics Extended Part is counted as one elective subject, to list the distribution of the highest grade point that the candidates can achieve. At present, the minimum general entrance requirements of local universities / institutions are mainly (332A)22. Therefore, when designing this Table, candidates' results are classified under this requirement to provide candidates with more comprehensive reference information for selection of programmes.

(332A)22 Refers to attainment with level 3 or above in Chinese Language and English Language, level 2 or above in Mathematics Compulsory Part, 'Attained' in Citizenship and Social Development, and two electives at level 2 or above.

The calculation of the total grade points for the best five subjects only serves as a reference. Admission to any programme offered by individual universities / tertiary institutions will depend on a number of factors including the general entrance requirements of the institutions, specific programme requirements, the method of calculation of admission scores, the number of applicants and places offered, candidates' Student Learning Profile (SLP), other experiences and achievements in competition/activities (OEA), and performance at interviews, etc. Besides, individual universities or institutions may take a flexible approach on the admission of students in special circumstances for which the statistical tables cannot report. Therefore, candidates should pay attention to the special admission arrangements offered by individual universities or institutions and make appropriate choices according to their own abilities and interests.

Item	Description	Note

Attainment in Mathematics Extended Part - 5	Number/Percentage of all candidates with level	

	5 in Mathematics Extended Part and different levels in Mathematics Compulsory Part	
Attainment in Mathematics Extended Part - 4	Number/Percentage of all candidates with level 4 in Mathematics Extended Part and different levels in Mathematics Compulsory Part	
Attainment in Mathematics Extended Part - 3	Number/Percentage of all candidates with level 3 in Mathematics Extended Part and different levels in Mathematics Compulsory Part	
Attainment in Mathematics Extended Part - 2	Number/Percentage of all candidates with level 2 in Mathematics Extended Part and different levels in Mathematics Compulsory Part	
Attainment in Mathematics Extended Part - 1	Number/Percentage of all candidates with level 1 in Mathematics Extended Part and different levels in Mathematics Compulsory Part	
Attainment in Mathematics Extended Part - U	Number/Percentage of all candidates with level U in Mathematics Extended Part and different levels in Mathematics Compulsory Part	
Total	Total Number/Percentage of all candidates with different levels in Mathematics Extended Part and different levels in Mathematics Compulsory Part	

2025 HKDSE Top levels / grades statistics - Day School Candidates

Item	Description	Note
No.	Row number	
Total no. of subjects at top levels / grades#	Total number of subjects at top levels / grades#	7 6 5 4 3 2 1 0 Total
Candidates with the corresponding results in Category A subjects (including Chinese Language, English Language and Mathematics Compulsory Part) - No. of Male	Number of male day school candidates with 0 to 7 subjects at top levels / grades in Category A subjects (including Chinese Language, English Language and Mathematics Compulsory Part)	
Candidates with the corresponding results in Category A subjects (including Chinese Language, English Language and Mathematics Compulsory Part) - % of Male	Percentage of male day school candidates with 0 to 7 subjects at top levels / grades in Category A subjects (including Chinese Language, English Language and Mathematics Compulsory Part)	
Candidates with the corresponding results in Category A subjects (including Chinese Language, English Language and Mathematics Compulsory Part) - No. of Female	Number of female day school candidates with 0 to 7 subjects at top levels / grades in Category A subjects (including Chinese Language, English Language and Mathematics Compulsory Part)	

Candidates with the corresponding results in Category A subjects (including Chinese Language, English Language and Mathematics Compulsory Part) - % of Female	Percentage of female day school candidates with 0 to 7 subjects at top levels / grades in Category A subjects (including Chinese Language, English Language and Mathematics Compulsory Part)	
Candidates with the corresponding results in Category A subjects (including Chinese Language, English Language and Mathematics Compulsory Part) - Total No.	Number of all day school candidates with 0 to 7 subjects at top levels / grades in Category A subjects (including Chinese Language, English Language and Mathematics Compulsory Part)	
Candidates with the corresponding results in Category A subjects (including Chinese Language, English Language and Mathematics Compulsory Part) - Total %	Percentage of all day school candidates with 0 to 7 subjects at top levels / grades in Category A subjects (including Chinese Language, English Language and Mathematics Compulsory Part)	
Candidates with the corresponding results in Category A subjects - No. of Male	Number of male day school candidates with 0 to 7 subjects at top levels / grades in Category A subjects	
Candidates with the corresponding results in Category A subjects - % of Male	Percentage of male day school candidates with 0 to 7 subjects at top levels / grades in Category A subjects	
Candidates with the corresponding results in Category A subjects - No. of Female	Number of female day school candidates with 0 to 7 subjects at top levels / grades in Category A subjects	
Candidates with the corresponding results in Category A subjects - % of Female	Percentage of female day school candidates with 0 to 7 subjects at top levels / grades in Category A subjects	
Candidates with the corresponding results in Category A subjects - Total No.	Number of all day school candidates with 0 to 7 subjects at top levels / grades in Category A subjects	
Candidates with the corresponding results in Category A subjects - Total %	Percentage of all day school candidates with 0 to 7 subjects at top levels / grades in Category A subjects	

Only candidates with 'Attained' in Citizenship and Social Development are included in the table above; but this subject does not count towards the 'Total no. of subjects at top levels / grades'.

Note: Mathematics Compulsory Part and Mathematics Extended Part are counted as one subject. When candidates have results in both parts, the better of the two will be selected.
